Big Biz ERP Solutions for SME's

We have developed Big Biz ERP solution to support manufacturing, trading and services industries.

Our solution provides you
Human Resource Management
Customer Relationship Management
Business Process Management

Big Biz helps manufacturers or traders of small businesses to mid size enterprises see more clearly. Integration of data across the enterprise ensures that you have greater visibility in all areas of your business, from daily operations to a strategic decision level.

Insight into production, inventory and financial data makes it easy to identify opportunities for cost savings and efficiency improvements.

Big Biz is packed with powerful features, is extremely easy to implement and use, comprehensive in its scope, modular and flexible, fully customizable, totally secure and incredibly robust.
